DYNAMIC DEVELOPMENT SINCE EU ACCESSION IN THE CEE MEMBER STATES

VIG markets CZ, EE, HU, LV, LT, PL, SK, SL are becoming EU members as of 1 May 2004

Major developments and future growth drivers

- Within 20 years, GDP per capita grew from as low as 30% of Western European levels to over 70%
- CEE is well-positioned to capitalise on the **nearshoring trend** – EU to strengthen EU-centric value chains especially in critical/strategic sectors
- **Digital transformation** is particularly dynamic in the CEE region
- **Green transition** is seen both as an opportunity and a challenge for the CEE region given its current substantial reliance on non-renewable energy
- EU-CEE education spendings increased, creating a **well-educated** and **price-competitive labour force**; promotion of skill development boosts productivity and improves the position of the EU-CEE markets in the global value chains

STRONG MACROECONOMIC OUTLOOK FOR CEE

Excellent average annual real GDP growth rates (2024-2028) expected for major VIG markets

For most CESEE countries 2024 will be better than 2023

- GDP growth for the EU members in the region is forecasted at average of 2.5%, rising to 3% in 2025 – significantly outperforming the stagnant euro area (0.6%), and still growing next year twice as fast as the euro area (1.6%)
 - Romania (3.0%) and Croatia (2.9%) are seen to grow particularly strong in 2024, supported by in-flows from EU funds
 - Czech Republic, Poland, Slovakia and Hungary are expected to grow at an average rate of 2.4% this year, rising to 3.0% in 2025
- Inflation in most of VIG markets has slowed significantly on the back of falling food and energy prices, allowing for rapid real wage growth
- Private consumption is driving the growth on the back of rising wages (tight labour markets) and falling inflation

SUCCESS IS BUILT ON DIVERSIFIED AND RESILIENT BUSINESS MODEL

VIG's 4 proven management principles

Local entrepreneurship

- Knowledge of local needs and markets
- Decentralised structures & efficient decision-making procedures
- VIG Holding responsible for steering the Group

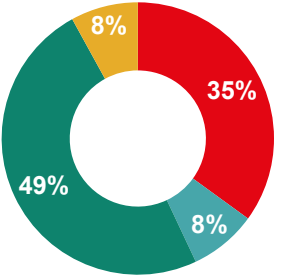

Multi-brand policy

- Utilisation of established local brands → Local identification through market-specific brand(s)
- “Vienna Insurance Group” underlines the Group’s internationality and strength

Multi-channel distribution

- Various distribution channels (incl. partnership with Erste Group)
- Strongly customer-oriented distribution

Employed sales forces & tied agents	35%	Brokers & agents	49%
Banks	8%	Other (incl. online sales)	8%

Conservative investment and reinsurance policies

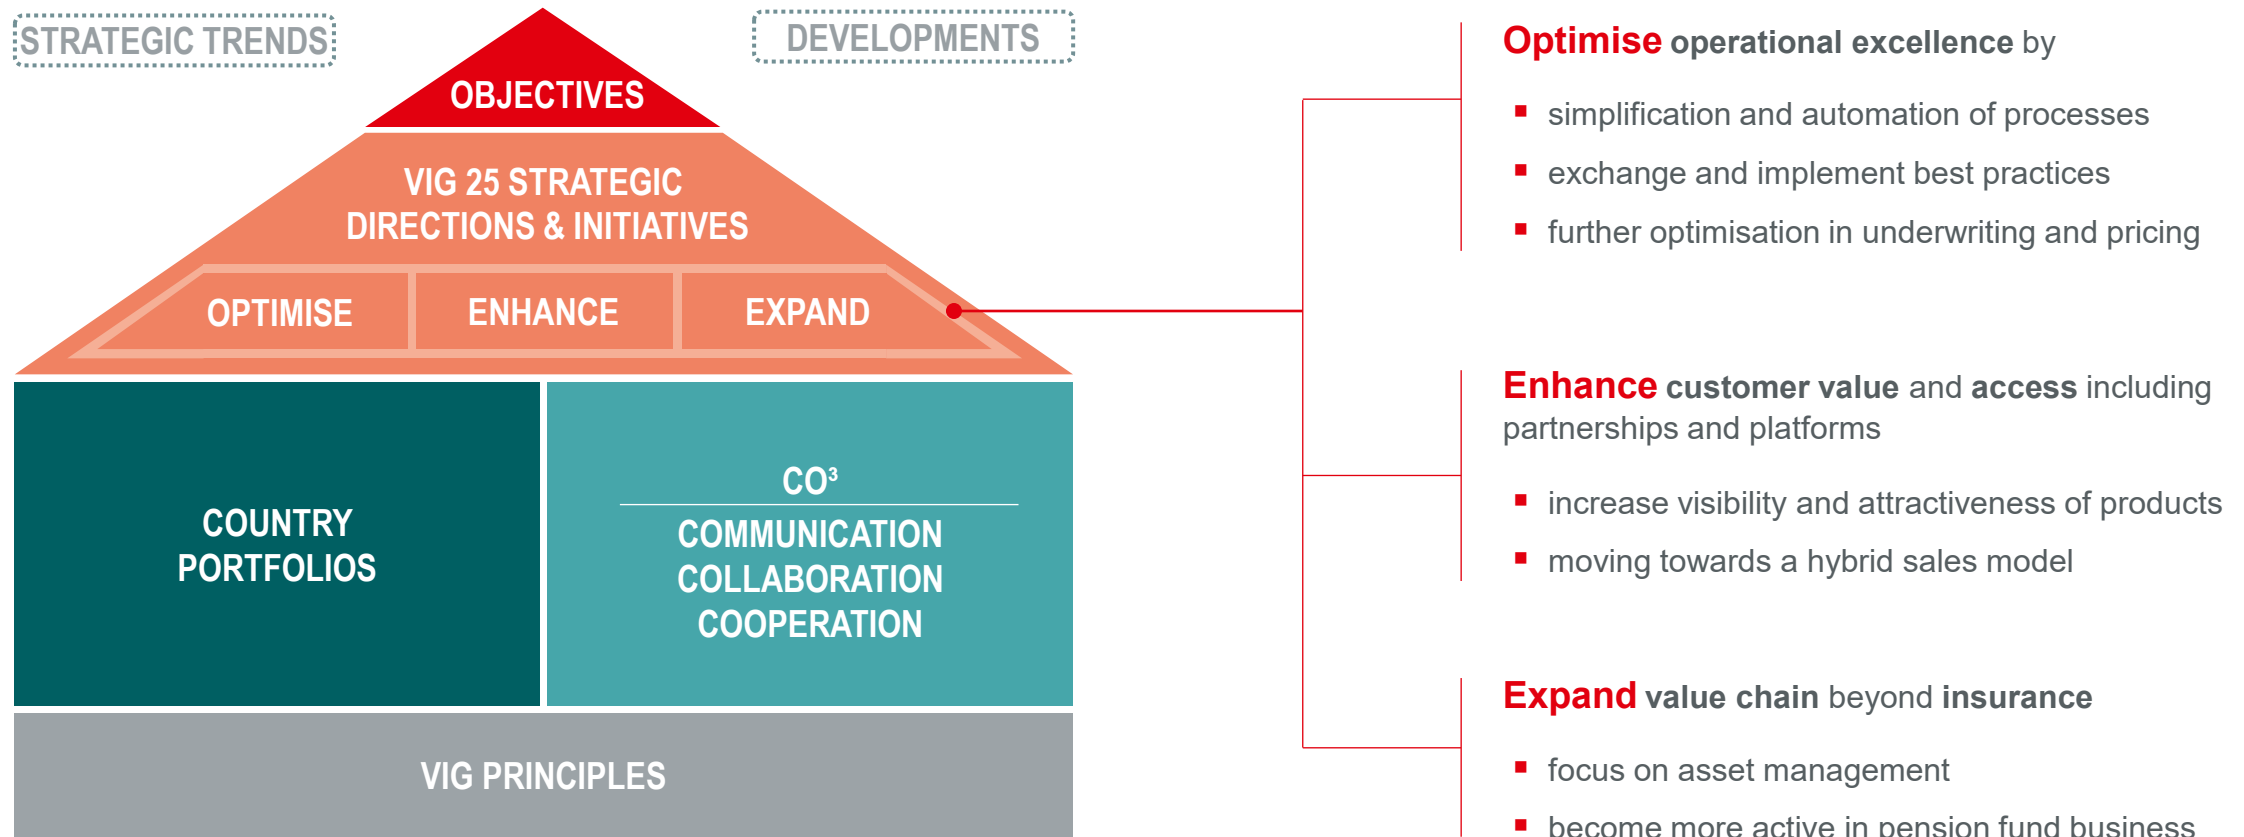

- Focus on secure and sustainable investments
- Spreading risk by means of diversification

Investments held at VIG's own risk

VIG 25 STRATEGIC PROGRAMME SECURES FURTHER DYNAMIC DEVELOPMENT

Initiatives and projects to optimise, enhance and expand VIG's business model

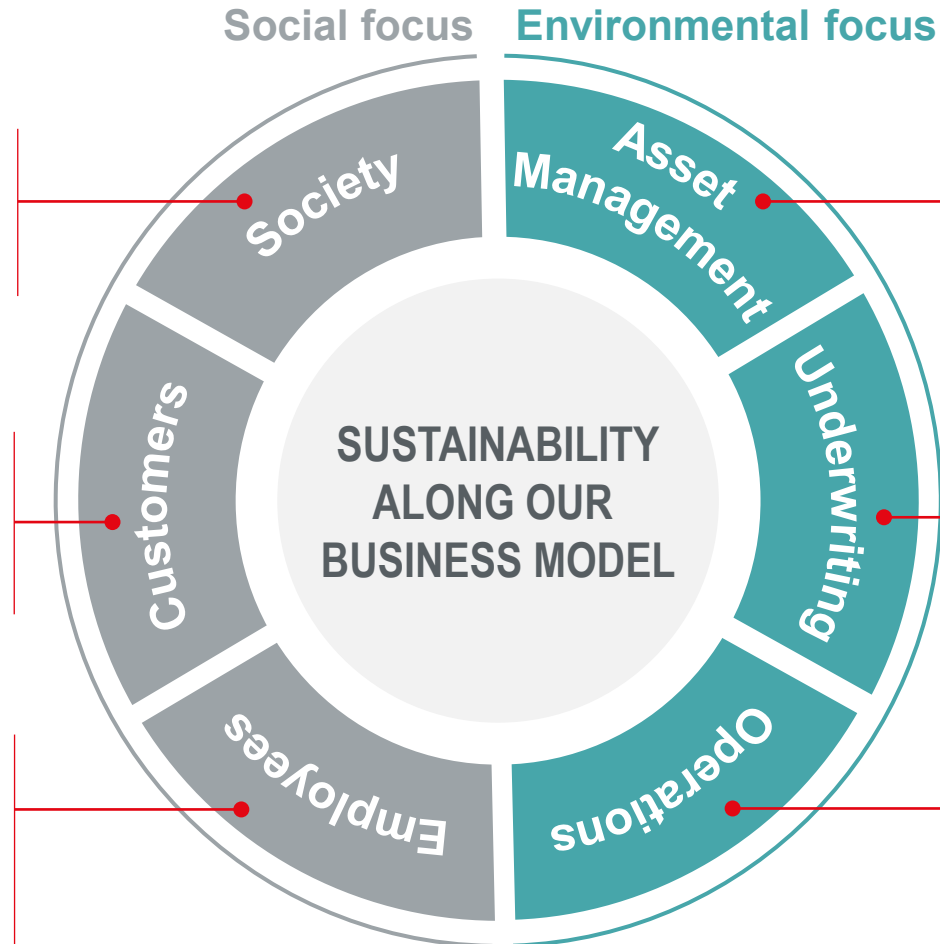

GROUP-WIDE SUSTAINABILITY PROGRAMME COMPLEMENTS VIG 25 STRATEGIC PROGRAMME

Sustainability in VIG means creating economic value today without doing so at the expense of tomorrow

Objectives

- Promote **risk literacy**
- Grow **corporate volunteering**
- Focus on **customer satisfaction**
- Close the **protection gap**
- **Attractive employer with equal opportunities** for all
- **Employee focus**

Objectives

- Reduce **emissions of investment portfolio to net zero by 2050**
- Reduce **emissions of corporate and retail underwriting portfolios to net zero by 2050**
- Increase the **share of sustainable products**
- **Climate neutral** operation of our offices by 2030, net zero by 2050

RISK AWARENESS AND RISK LITERACY IN CEE TO BE IMPROVED

VIG defines risk literacy as the ability to make informed and considerate decisions in relation to risks

Risk literacy in CEE according to a representative study not particularly strong

- Around $\frac{2}{3}$ of the population have little to no awareness of the health, work, housing, liability, and cyber risks and believe that the public authorities would intervene
- 7 out of 10 respondents do not believe that the risks are likely to become a reality, despite judging potential loss/damage to be high
- 1 out of 5 has taken no risk-prevention measures at all

The global protection gap (need in % of economic loss)¹

In addition to **GDP growth** and **increased wealth** of the population, improved risk literacy is an important driver for further developing insurance density, reaching **potential future customers** and helping individuals and society to achieve **economic resilience** (closing the protection gap).

S&P CONFIRMES A+ RATING WITH STABLE OUTLOOK

Revised S&P Capital Model Criteria

S&P published updated research for VIG under revised model and affirmed A+ rating with stable outlook

- Solid capital buffers at the highest confidence level (99.99%), as per S&P's updated risk-based capital model, supported by VIG's underwriting discipline
- VIG's financial leverage moved firmly below 40% and is expected to remain in a range between 30% and 36% in the next few years
- Key strengths:
 - Market leader in Austria and several Central and Eastern European (CEE) markets
 - A well-diversified insurance portfolio, enhanced by strong distribution capabilities and an exclusive bancassurance contract with Erste Group Bank AG
 - Solid reinsurance protection that limits the group's natural catastrophe losses
- Key risks:
 - Operating environment and economic conditions, including elevated inflation in larger emerging markets in the EMEA, namely Hungary, Poland, Romania, and Türkiye, remains challenging
 - Greater regional earnings concentration than higher-rated peers
 - Relatively high capital sensitivity to market movements, particularly interest rates
